Remove Encumbering Material.

Much Blasting Will Be Necessary to Remove Encumbering Material. Disposal of Wreckage—Theories and Rumors.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Feb. 24.—Rumors of startling discoveries in the wreck of the Maine were less frequent, but there were enough of them still afloat today to warrant Secretary Long in making this statement to newspaper men:

"Summing up the situation, I should say that the Navy Department knows today nothing more about the cause of the disaster than it did five minutes after the receipt of the first dispatches from Capt. Sigsbee."

Until the conclusion of the investigation of the court of inquiry at Havana, the principal business of the Navy Department in connection with the Maine will relate to the conduct of the wrecking operations. Capt. Lemley, the Judge-Advocate-General, who has this branch of the work immediately in charge, today received telegrams from the Merritt & Chapman Wrecking Company at New York, stating that the steamer Merritt and wrecking-lighter Sharpe had sailed for Havana, and that the tug Underwriter, with the Chief, would leave New York Saturday for the same place.

The only exact information received by the Navy Department from Havana during the day was conveyed in Capt. Sigsbee's telegram concerning the work of the divers and the disinfestation of clothing recovered from the wreck. Secretary Long immediately answered Capt. Sigsbee, approving all his recommendations. He was directed to have Lieut. Wainright, the executive officer of the Maine, make arrangements with the wreckers for the disinfestation of everything sent to the United States.

The recommendation that all bedding and clothing be abandoned, and, if need be, given to the acclimated poor, was approved without comment. The same approval was given to the suggestion that useless fittings and equipments be towed to sea and thrown overboard, it being left to Capt. Sigsbee's judgment to determine how far this destruction should be carried on.

To the captain's inquiry as to the saving of old metal and parts of the superstructure, the answer was given that such material was of no use to the bureau of equipment. It was left to Capt. Sigsbee to say what of the shattered material was worth preserving. His statement that much blasting will be required to clear away encumbering material indicates that it is essential further to destroy the upper portions of the wreck in order to get at what is more valuable beneath.

Capt. Sigsbee's statement that the divers have been down aft seven days and forward four days gave the Navy Department the first information of the time that the divers had been in the vicinity of the zone of the explosion, as he expressed it.

The Navy Department today gave out the figures showing the strength of the naval militia up to date. This shows a total force of 4445 officers and enlisted men, which is a gratifying increase from the 3703 shown by the last report. The number of officers and men by States is as follows: California, 396; Connecticut, 165; Florida, 106; Georgia, 225; Illinois, 523; Louisiana, 262; Maryland, 240; Massachusetts, 441; Michigan, 193; New Jersey, 364; New York, 472; North Carolina, 230; Ohio, 216; Pennsylvania, 216; Rhode Island, 130; South Carolina, 152; Virginia, 44; total, 4445.

Chaplain Chidwick reports that all the wounded are doing well except Frederick C. Holzer of New York, who may die at any moment.

Neither the officers of the court of inquiry nor the witnesses will give the slightest indication of the testimony or the conclusions deducible from it, and all say that the men employed in the work to be accomplished.

## DIVERS' WORK.

the total to much larger figures at an early day.

In his last report, Assistant Secretary Roosevelt said that the State naval militia, in the event of a sudden emergency, could be utilized at once for manning the smaller cruisers. It could be depended upon mainly, he said, as a second line of defense, and also be used in placing mines and the establishment of signal stations for coast defense.

The appropriation of \$50,000 made by Congress to aid the work of the naval militia would be apportioned among the States.

Thanks to the promptness and efficiency of the chief of engineers and the chief of ordnance of the army, the city of Washington is now regarded as being well nigh safe and secure from attack by water. The fortifications at Fort Washington and Sheridan Point on the opposite side of the Potomac are sufficiently advanced to be able to repel an ordinary fleet of invaders, and in case of necessity they could be vastly strengthened in a comparatively short time. These defenses are considered sufficient to keep all hostile vessels beyond the range of gunshot of the national capital.

Moreover, the river has been blocked off and prepared for mines and torpedoes at a point below the fortifications already mentioned, so that some of the ships of an enemy could be blown out of the water before it would be necessary to use the guns at the fort.

The officers of the British warship Hood today cabled from the Island of Crete, expressing deep sympathy over the disaster to the Maine.

**THE PRESIDENT HOPEFUL.**

**BUT WAR WITH SPAIN WILL NOT FIND US UNPREPARED.**

**[ASSOCIATED PRESS DAY REPORT.]**

CHICAGO, Feb. 24.—The Tribune this morning prints the following special from Washington:

"I do not propose to do anything at all to accelerate war with Spain. Up to the present I do not think war is either necessary or inevitable. I would be lax in my duty, however, if I did not prepare for the future. The situation is grave, and the policy of the administration will be determined almost entirely by the course of events from time to time. There is no necessity of alarming the people, but Congress must be ready to assist the administration without making too many inquiries as to the course of current events."

To a Senator who called upon him yesterday in order to ask some serious questions as to the policy of the administration President McKinley, with the utmost frankness, uttered the above words. There is no doubt of the fact that the government of the United States is actually preparing for war with Spain. It does not follow that war will come, but the activity in both the War and Navy departments is too unmistakable to be concealed.

The President and his Cabinet unite in the belief still, in spite of all evidence to the contrary, that the explosion of the Maine was the result of an unfortunate accident, but they recognize the fact that the contrary may prove true at almost any hour, and if it shall be shown even inferentially that Spain had a hand in the catastrophe there will be but one thing to do, and that will be to seize the island of Cuba by force of arms.

No bodies were recovered today from the wreck. Recent orders from Capt. Sigsbee strictly forbid all officers of the Maine to give out any information except to those officially empowered to ask for it. The order is generally understood to apply to official matters, though some think it affects only matters connected with the disaster.

**MORE BODIES SIGHTED.**

**[ASSOCIATED PRESS NIGHT REPORT.]**

WASHINGTON, Feb. 24.—Late tonight the Navy Department received two brief telegrams from Capt. Sigsbee at Havana.

One related to some routine matter of expenditures in connection with the work on the Maine, and the other is as follows:

"Divers report more bodies in the wreck. Some in hammocks involved in debris. Probably not recognizable."

This dispatch indicates that the divers have finally secured at least a partial entrance to the quarters in the forward part of the vessel, where the crew were asleep when the explosion

occurred, and under which were the magazines. One fact that the divers were unable to extricate the bodies from the fearful obstacles against which they are working, and bears out the belief that the work of submarine investigation will necessarily proceed slowly.

### MYSTERY STILL DENSE.

**Administration Credited With No New Information.**

**[ASSOCIATED PRESS DAY REPORT.]**

WASHINGTON, Feb. 24.—The mystery surrounding the blowing up of the Maine remains as dense as on the day following the explosion. That is the opinion of the administration, at least, and presumably it is as well informed in state affairs as any unofficial person.

If there was any development of value at Havana, it is not known. If any was discovered, tended to throw light upon the nature and cause of the explosion, none of these facts, as yet, have been reported either to the Navy or to the State Department.

To attempt to find from the position of an armor plate lying in the upper works of the wreck that the explosion was internal or external in its origin is, in the opinion of the officials here, without warrant.

The Maine carried no armor below water at a greater depth than 2½ feet. Beneath that there were nothing but the ordinary thin hull plates of about half an inch structural steel. All of the armor, even that worked into the protective deck, was entirely above the magazines, and in case of an explosion, the magazine might easily have been tossed upward.

The Navy Department has not been informed of the probable length of time to be occupied by the court of inquiry in its work. Such a court, it is said, has the greatest liberty of action.

There is greater difficulty in ascertaining which is more limited by the naval regulations. Of course it is possible that the court will leave Havana in the course of a day or two for Key West, in order to take there the testimony of many of the surviving officers and men.

The latter are not subject to release from their position until the court leaves Havana, it will return to the court after a period of time to ascertain from the work of the divers which is more limited by the naval regulations.

The coast survey steamer Baché, after many delays, left for Dry Tortugas this afternoon with three wounded, all doing well.

## DIVERS' WORK.

(CONTINUED ON THIRD PAGE.)

stitutional convention. He pointed out that the Constitution provided that each State should be the peer of every other State, not in population, nor wealth, nor in area, but in the number of votes in the Senate. While the Constitution could be amended by the action of two-thirds of the States, it was expressly provided that no State could be deprived of representation in the Senate without its consent. It was at the purpose, undoubtedly, of the framers of the Constitution in placing in the Governor the power to make temporary appointments to safeguard the rights and interests of the State, so that every State at all times might have full and complete representation in the Senate.

Mr. Hough endeavored to get before the Senate the Alaska Home-stead and Railroad Right-of-Way Bill.

Mr. Wilson of Washington said ve-

hemently: "There is no more important

bill on the calendar than this. It is

of the greatest interest and im-

portance to thousands of people in

our Northwestern States."

The Senate was about to proceed with the bill when Mr. Rawlins of Utah made the point of no quorum. A roll-call developed the fact that 41 senators were relieved, giving decisive upon one of the commodores, possibly commandore Schley of the Lighthouse Board, which post he probably would be glad to relinquish for such a command as the North Atlantic squadron.

There were no dispatches in the fore-

noon of the navy department either

from Key West or Havana, and the

only naval message reported was the

dropping down from the Norfolk navy

yard to Hampton Roads of the big

double-turreted Monitor Terror. There

the Senate adjourned, and the Sen-

ate adjourned at 4:35 p.m. by a vote of

17 to 14.

**HOUSE.**—The House devoted itself

strictly to business today and dis-

posed of three important pages of the

Senate Bill Appropriation Bill.

The fact that the government is pre-

paring for contingencies was recog-

nized in the House today, when Chair-

man Cannon, who has been laboring

to keep down appropriations, said

with a smile of present an amend-

ment to increase the appropriation to

care for the unused machinery at the

Springfield arsenal. Mr. Gillette ex-

plained that necessity for using the ma-

chinery might occur at any time.

Resolutions which were objected to a

few weeks ago for the appointment

of two extra naval cadets to positions

in the engineers corps of the navy were

also adopted. One of them will fill a

vacancy caused by the death of Lieut.

Meritt of the Maine.

The bill in the bill placing at the

disposal of the quarantine service the

government's unexpired epidemic

funds, amounting now to \$24,000, cre-

ated considerable debate. Several

southern members opposed a pro-

prietary bill, an additional \$2,000,

arguing that in the event of a recur-

rence of the yellow-fever epidemic the

funds on hand might not be sufficient.

The southern members, however, were

not a unit in demanding the increased

appropriation. Mr. Pease (Dem.) of Texas, for instance, opposed govern-

ment control of quarantine, declar-

ing that quarantine regulations should

be left to the States.

Mr. Underwood (Dem.) of Alabama

also opposed exclusive control by the

Federal government, the establishment

of which regulations having been ad-

dicted by Mr. Carmack (Dem.) of Ten-

nessee.

An amendment by Mr. Sayers (Dem.)

of Texas to increase the fund at the

disposal of the quarantine service

\$2,000 was lost.

The following proviso was ruled out

on a point of order raised by Chairman

Lacey of the Public Lands Committee,

that it was new legislation:

"That hereafter no public money

shall be expended for the survey of

any portion of the public domain embraced

within any forest reserves of the

United States except for such surveys

as may be necessary to designate the

exterior boundaries of such reserves

and of such lands within said reserves

as are not already reserved by legal claims initiated prior to the

date of the proclamation of the rese-

rvation."

Mr. Smith (Dem.) of Arizona offered

an amendment appropriating \$5000 for

the geological survey of Yuma county,

Arizona, but it was ruled out on a

point of order.

On motion of Mr. de Vries (Dem.) of California, an amendment was adopted appropriating \$6000 for the Yosemite National Park, California.

After completing the pages of the

bill, the committee rose.

**NEWS FROM TAMPA.**

[ASSOCIATED PRESS NIGHT REPORT.]

JACKSONVILLE (Fla.) Feb. 24.—A

special to the Times-Union and Citizen

of Tampa, Fla., says the United

States cruiser Montgomery, which ar-

rived at Port Tampa yesterday, re-

mained at the coal docks all day

taking on coal, getting supplies and

water, and was ready to sail for

Key West tomorrow unless otherwise

ordered. The revenue cutter Forward

sailed tonight for Key West.

The small steamer Olivette arrived

this afternoon from New Orleans and

a number of passengers from that city

said that the report to the effect that

Americans had been advised by Gen.

Lee to leave the city was absolutely

false.

**MR. POWELLSON'S DISCOVERY.**

[ASSOCIATED PRESS NIGHT REPORT.]

Whatever Blew Up the Maine Was

Under Her Keel.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Feb. 24.—A Herald dis-

patch from Havana says:

"There is no longer any reason to

doubt that the explosion which

wrecked the Maine came from under-

neath the vessel, and that her maga-

zines had nothing to do with the initial

explosion and played a much small part

in the great disaster than was at first

supposed.

The evidence that has served to

convince the board was obtained by

Ensign Powellson, an officer attached to

the Fern. Mr. Powellson was for-

merly in the construction corps and

took a two-year special course in the

Glasgow School of Naval Architecture.

He is therefore a competent witness.

What he discovered was that the for-

ward part of the keel of the Maine,

with its ribs and plates, was stove up-

ward so far that parts of the shattered

double bottom show out of water, and

in places sections of the green-painted

outer hull are visible.

Corroboration of evidence given by

Ensign Powellson, and of equal sig-

nificance and importance, is the result

of the close examination made by the

divers. What they found indicates

that the explosion came from a point

beneath the keel. A plumb line dropped

from a point just forward of the con-

ning-tower would have laid the lead

exactly on the spot where the explo-

sion occurred that hole keel and plates

and ribs almost to the surface. The

main force of the explosions seems to

have been exerted slightly on the port

side of the vessel. This is consistent

with the facts hitherto ascertained.

**HELD UP THE SALOON****MOST DARING ROBBERY AT KERN CITY.**

Three Men Bind and Gag the Bar-tender of Philippe Bros' Saloon and Rifle the Place.

**A SEARCH FOR THE ROBBERS.****NO CLEW AS TO THEIR IDENTITY OR WHEREABOUTS OBTAINED.**

A. C. Kimble of Los Angeles Dies from a Fall—Murderers' Appeals in the Supreme Court—The Welcome Rain.

[BY DIRECT WIRE TO THE TIMES.] BAKERSFIELD, Feb. 24.—[Exclusive Dispatch.] One of the most daring hold-ups for some years occurred at Kern City at a comparatively early hour last night.

About 10 o'clock last night three men with handkerchiefs tied over their faces entered the saloon of Felipe Bros., at Kern City, and while one of them covered the barkeeper, who was the only occupant at the time, the others locked the door and proceeded to search the premises. After rifling the pockets of their prisoner they compelled him to go behind the bar and open the till, the contents of which, together with a revolver and several bottles of whisky, they appropriated and, binding and gagging the barkeeper, went their way as quietly and mysteriously as the hour had come.

The barkeeper finally succeeded in freeing himself and so had the neighborhood aroused, but although the officers spent the entire night searching for the robbers, not the slightest clue as to their identity or whereabouts could be obtained. The description states that one of the men was of herculean build, with a black beard, while his two smaller companions, one was smooth shaven and the other seemed older and had a mustache tinged with gray. The other man was dressed great moderation, and every effort will be made to apprehend the trio.

It is thought from the methodical and nonchalant way in which the maneuver was executed that they are old hands and the way in which they have covered their tracks seems to bear out this idea.

**TICKLING THE FARMERS.**

Jupiter Pluvius Sends Another Beneficial Downpour.

[ASSOCIATED PRESS DAY REPORT.] SAN FRANCISCO, Feb. 24.—The cloudy weather of the past two days culminated last night in a downpour of rain shortly before midnight, the heaviest for some time past, and there has been a steady fall for the past ten hours, which extends all over the northern part of the State and as far south as Fresno.

The Southern Pacific Company furnished the Associated Press this morning with a report from its agents all over the State, showing that rain was falling at the following points at 7 o'clock this morning: Martinez, Galt, Vallejo, Benicia, Sacramento, Marysville, Napa, Vacaville, Winters, Red Bluff, Marysville, Chico, Redding, Delta, Woodland, Willows, Pacerville, Sacramento, Auburn, Colfax San Mateo and Pleasanton.

The heaviest fall during the twenty-four hours ending at 7 a.m. was at Calistoga, 1.66 inches; and the lowest fall of 0.01 inches was at the San Joaquin unit, 32 inches of snow are upon the ground, and it is snowing heavily at Dunsmuir and Truckee. Speaking of the crop conditions this morning, W. H. Mills of the Central Pacific Company, said:

The deposit of snow on the mountain is satisfactory, guaranteeing a good stage of the rivers during the next year. The rain insures crops from Merced northward to the State line. The summer fallow has been kept in good condition. The winter-sown grain is barely up. The set is very light, but this rain will do much to bring it out. It will require but little more rain this season to guarantee good crops on all summer-fallowed land north of Stockton.

In some portions of the State, notably the coast valley, south of Monterey, the wheat came up and died on the ground. It is too late to reseed the ground. It has not rained any in the valley since the fall of the Sierras. The crops in Sonoma and Mendocino never looked better at this season of the year than now."

IT WAS GENERAL.

[ASSOCIATED PRESS NIGHT REPORT.] SAN FRANCISCO, Feb. 24.—Reports from all parts of the State indicate that a general rain has fallen during the past twenty-four hours to the great benefit of the growing crops which had been suffering from the long-continued drought. Owners of docks and herds are much encouraged for the pasture had been particularly pleased with the outlook for a favorable season.

WHAT WAS WANTED.

[ASSOCIATED PRESS DAY REPORT.] FRESNO, Feb. 24.—It has been raining here since midnight, and the best of crops are assured. The last rain started wheat well, but dry winds have damaged it to some extent since. It is agreed, however, that the rains of last night and today will reduce this damage to a minimum. Wheat is well up, and there has now been rain enough to insure a good crop.

Sheep and cattle men have not been complaining since the last rain, which started the feed for their stock.

GREATLY NEEDED.

[ASSOCIATED PRESS NIGHT REPORT.] NAPA, Feb. 24.—Rain began falling at 12 o'clock last night and has continued ever since. It was greatly needed, and will do much good.

WALNUT CREEK'S SHARE.

WALNUT CREEK, Feb. 24.—Nearly two inches of rain fell today. The crops in this valley never looked better.

WONDERFUL HELP.

[ASSOCIATED PRESS NIGHT REPORT.] MARTINEZ, Feb. 24.—Rain began falling at 12 o'clock last night and continued all day. The fall of the storm is 1.36 inches, making the total for the season 8.01 inches. Last season up to date the fall was 20.62 inches. At Brentwood 19 of an inch fell. There will be good crops this year. The rain has been a wonderful help to fruit trees. The hills are green and stock is not suffering.

NEARLY AN INCH.

[ASSOCIATED PRESS NIGHT REPORT.] WATSONVILLE, Feb. 24.—Rain fell steadily from 7 a.m. until 1 p.m. During the afternoon there were occasional showers, and there are indica-

tions of a storm tonight. The precipitation today amounted to nearly one inch.

**WIND AND HAIL.**

[ASSOCIATED PRESS NIGHT REPORT.] SANTA CRUZ, Feb. 24.—Heavy rain fell today, and there were occasional showers of hail. A strong wind is blowing.

**GOOD FOR FEED.**

[ASSOCIATED PRESS NIGHT REPORT.] TEMPLETON, Feb. 24.—It has rained all day, and the wind is in the southwest. Feed is short, but there will be good crops if showers continue. The rainfall today amounts to .35 of an inch.

**NOT UP TO EXPECTATIONS.**

[ASSOCIATED PRESS NIGHT REPORT.] FRESNO, Feb. 24.—All indications have been favorable for a good rain during the past twenty-four hours, but only .65 of an inch has fallen. The grain crop is badly in need of another heavy downpour, and if it does not come soon all is off for the present. The people in the small irrigated districts. Most of the grain is late in starting that plenty of rain is necessary to make a crop.

**MOST WELCOME.**

[ASSOCIATED PRESS NIGHT REPORT.] STOCKTON, Feb. 24.—This section was visited this afternoon by the most welcome rain it has known in years. After missing the two last showers which reached San Francisco and the coast, Stockton and San Joaquin county were exceedingly anxious for the downpour. They say that the rain was general over the entire county, and extended for some distance up the valley. The fall here was .35 of an inch, making 4.83 inches for the season, against 79 inches last season. The indications are for other showers before morning.

**FOR FIFTEEN HOURS.**

[ASSOCIATED PRESS NIGHT REPORT.] SACRAMENTO, February 24.—The ground in this part of the State got a good soaking today. Rain commenced falling at 2 o'clock this morning and continued quite steadily up to 5 o'clock this evening. The fall was 1.10 inches. While rain was not needed here at this time it was welcome to the farmers for the grain had not yet all. It will give the growing grain a fresh bloom. Grass is growing well and pasture is good. This rain will enable farmers to complete their summer fallowing. Up to 5 o'clock the rainfall here was .85 inches, much over half of what fell last year, but then none of it has gone to waste. Every drop went to the ground.

**IT BEGAN AGAIN.**

[ASSOCIATED PRESS NIGHT REPORT.] SAN JOSE, Feb. 24.—It is still raining, and the valley is rejoicing in the best soaking it has had since the winter opened. The rain began to fall at 3:30 o'clock this morning, and after a lull, came again shortly after midday. Total for the storm, .95 of an inch; for the season, 4.98. There is but one feeling among the orchardists and farmers, and that is, that all fear of failure has been dissipated. With a few more inches of rain like this to come in March, the growing crops will receive all the stimulus they need.

The success of the fruit crop is already assured, though in some sections there is a lack of water for irrigation. But in these same districts there have been good yields without the extra wetting.

**A PROMISING OUTLOOK.**

[ASSOCIATED PRESS NIGHT REPORT.] MILTON, Feb. 24.—A heavy south wind prevailed here last night, followed by rain, which has continued all day. The outlook for this season's crops is now very promising.

**SONOMA COUNTY'S BEST.**

[ASSOCIATED PRESS NIGHT REPORT.] SANTA ROSA, Feb. 24.—Sonoma county is now having the best rain of this winter. Rain began yesterday, followed by sun, which has continued all day, about three-quarters of an inch having fallen during the storm. The rainfall here for this season is now 12 1/2 inches, against 22% at the same time last year.

**FOLSOM HIGHWAY BONDS.**

An Opinion That the Bonds are Invalid.

[ASSOCIATED PRESS DAY REPORT.] SAN FRANCISCO, Feb. 24.—The cloudy weather of the past two days culminated last night in a downpour of rain shortly before midnight, the heaviest for some time past, and there has been a steady fall for the past ten hours, which extends all over the northern part of the State and as far south as Fresno.

The Southern Pacific Company furnished the Associated Press this morning with a report from its agents all over the State, showing that rain was falling at the following points at 7 o'clock this morning: Martinez, Galt, Vallejo, Benicia, Sacramento, Marysville, Napa, Vacaville, Winters, Red Bluff, Marysville, Chico, Redding, Delta, Woodland, Willows, Pacerville, Sacramento, Auburn, Colfax San Mateo and Pleasanton.

The heaviest fall during the twenty-four hours ending at 7 a.m. was at Calistoga, 1.66 inches; and the lowest fall of 0.01 inches was at the San Joaquin unit, 32 inches of snow are upon the ground, and it is snowing heavily at Dunsmuir and Truckee. Speaking of the crop conditions this morning, W. H. Mills of the Central Pacific Company, said:

The success of the fruit crop is already assured, though in some sections there is a lack of water for irrigation. But in these same districts there have been good yields without the extra wetting.

**A PROMISING OUTLOOK.**

[ASSOCIATED PRESS NIGHT REPORT.] MARYSVILLE, Feb. 24.—A heavy south wind prevailed here last night, followed by rain, which has continued all day. The outlook for this season's crops is now very promising.

**SAN JOSÉ'S BEST.**

[ASSOCIATED PRESS NIGHT REPORT.] SONOMA, Feb. 24.—Sonoma county is now having the best rain of this winter. Rain began yesterday, followed by sun, which has continued all day, about three-quarters of an inch having fallen during the storm. The rainfall here for this season is now 12 1/2 inches, against 22% at the same time last year.

**FOLSOM HIGHWAY BONDS.**

An Opinion That the Bonds are Invalid.

[ASSOCIATED PRESS DAY REPORT.] SAN FRANCISCO, Feb. 24.—The criminal department of the State Supreme Court today heard arguments in the appeal cases of Murderer John Miller of this city, Murderer George E. Crossman, Second Ward, A. Rhiel; Third Ward, M. O'Brien; Fourth Ward, E. Cooper. Nomination for Clerk will be made here by Col. A. L. Whittemore, who had been nominated for Mayor. Miller's resignation as a member of the club, on the ground that it was being manipulated by a few men for their own ends.

**APPEALS OF CRIMINALS.**

Supreme Court Listens to Miller, Ebanks and Plyler.

[ASSOCIATED PRESS NIGHT REPORT.] SAN FRANCISCO, Feb. 24.—The criminal department of the State Supreme Court today heard arguments in the appeal cases of Murderer John Miller of this city, Murderer George E. Crossman, Second Ward, A. Rhiel; Third Ward, M. O'Brien; Fourth Ward, E. Cooper. Nomination for Clerk will be made here by Col. A. L. Whittemore, who had been nominated for Mayor. Miller's resignation as a member of the club, on the ground that it was being manipulated by a few men for their own ends.

**HOLES KILLED ON A RAILROAD BRIDGE.**

TEHAMA, Feb. 24.—Train No. 15, which is due here at 4:40 o'clock, reached the eastern end of the Sacramento bridge half an hour late this morning and upon entering the bridge discovered several obects ahead. Before it could bring the train to a standstill the engine ran into a small band of horses belonging to a party of campers and killed four of the animals. Beyond demolishing the steps of several cars and delaying the train one hour while the track was being cleared, no further damage was done.

**HODGE AND PPLER.**

[ASSOCIATED PRESS NIGHT REPORT.] STOCKTON, Feb. 24.—Deputy Sheriffs Black and Wall started for New Hope with rifles this afternoon to capture, if possible, a young fellow who stole a bicycle last evening in this city. A message to the Sheriff from New Hope said a stranger had sold a bicycle for \$5. Shortly before 3 o'clock another message said the fellow had been captured and escaped. The officer who captured him left him in charge of another for a moment, and also left his pistol under the seat of the buggy in which the prisoner was sitting. As soon as the officer was out of sight the thief took the pistol from the seat, stood the guard off, and drove away.

Several persons started in pursuit as soon as possible, and a message said a shot had been heard in the direction taken by the fugitive and his pursuers.

**SLIPPERY THIEF.**

Run Away With His Captain's Horse, Buggy and Pistol.

[ASSOCIATED PRESS NIGHT REPORT.] STOCKTON, Feb. 24.—Deputy Sheriffs Black and Wall started for New Hope with rifles this afternoon to capture, if possible, a young fellow who stole a bicycle last evening in this city. A message to the Sheriff from New Hope said a stranger had sold a bicycle for \$5. Shortly before 3 o'clock another message said the fellow had been captured and escaped. The officer who captured him left him in charge of another for a moment, and also left his pistol under the seat of the buggy in which the prisoner was sitting. As soon as the officer was out of sight the thief took the pistol from the seat, stood the guard off, and drove away.

**CHILD MANGLED BY MACHINERY.**

EUREKA, Feb. 24.—The twelve-year-old son of J. E. Paul of this city was the victim of a serious accident at Trinidad today. He was found lying unconscious on the floor with one arm torn from its socket and the other fractured in two places. Both legs were broken and there were many cuts about the face and head. His recovery is extremely doubtful. It is supposed that he became entangled in the machinery.

**BLUEJACKETS FOR HONOLULU.**

SAN FRANCISCO, Feb. 24.—A fatal accident occurred on board the British four-masted bark Rosshire, from Fugue Sound, while crossing in this afternoon. A tremendous swell was running, which caused the vessel to roll heavily, and a heavy bluejack fastened forward of the main hatch broke loose. The ship's carpenter, James Emmas, tried to secure it, and was caught between it and the rail. His skull was crushed into a pulp, and he died instantly.

**STEAMSHIP MARINERA.**

SAN FRANCISCO, Feb. 24.—The steamship Marinera, bound tomorrow for Australia and Honolulu, will carry a number of American bluejackets to reinforce the crew of the clipper Falstaff and the gunboat Bonnington, now at Honolulu. It has been announced that the cruiser would be ordered to San Francisco, but the departure of the bluejackets indicates that this programme has been altered.

**STOLE POSTAL FUNDS.**

Edwin A. Lowe Will Be Taken Back to the Old Bay State.

[ASSOCIATED PRESS DAY REPORT.] SAN FRANCISCO, Feb. 24.—Postmaster Monro today swore to a complaint before the United States District Attorney charging Edwin A. Lowe with having stolen \$1000 of the postal funds while assistant postmaster at Newton Center, Mass.

**ROUNDED HIS OWN PREMISES.**

SAN FRANCISCO, Feb. 24.—The Superior Court here affirmed the judgment of the lower court of Los Angeles, convicting John Vaca of arson. The court finds that the testimony conclusively proved that the defendant burned his own premises in order to secure the insurance thereon. The exceptions of the defendant were purely technical.

**DICE GILED MURDER.**

SAN FRANCISCO, Feb. 24.—The Supreme Court has affirmed the judgment of the Superior Court of Tulare county, which found Benjamin Dice guilty of murder in the second degree. Dice shot and killed his brother-in-law, Grant Smith, during a quarrel over the possession of an inheritance. The appeal was based upon the insufficiency of the evidence to convict.

**EXPOSURE ON WASHINGTON'S BIRTHDAY WAS THE CAUSE.**

[ASSOCIATED PRESS NIGHT REPORT.] VENTURA, Feb. 21.—Capt. William Wagner, a G.A.R. veteran, for twenty-five years a resident of Ventura, died today, aged 81 years. The immediate cause of his death was exposure. Tuesday morning he fell among the rocks on the beach. Being too feeble to rise or give the alarm, the incoming tide washed over him, chilling him to unconsciousness. Capt. Wagner never rallied from the shock and exposure.

**CAPT. WAGNER DEAD.**

[ASSOCIATED PRESS NIGHT REPORT.] LOS ANGELENO'S FATAL FALL.

A. C. Kimble Dies at San Francisco With a Fractured Skul.

[ASSOCIATED PRESS DAY REPORT.] SAN FRANCISCO, Feb. 24.—A. C. Kimble of Los Angeles died at the Receiving Hospital this morning from a fractured skull.

**KIMBLE'S SENTENCE COMMUTED.**

SACRAMENTO, Feb. 24.—Gov. Budd today commuted the sentence of Charles J. Sweeney, sent from San Francisco a few years ago for manslaughter, and his term will expire March 1. Sweeney was an old-time baseball-player. While under the influence of liquor he caused the death of a man in San Francisco.

**SHOT BY HIS PARTNER.**

ROSEBURG (Or.), Feb. 24.—J. N. Castiel, an old and well-known miner of this section, was shot and killed to

first-class, and \$6 second-class is required to be added. It will be at once seen, therefore, that the cut of the Canadian Pacific is \$2 lower than that of the Oregon Railway and Navigation on first-class tickets.

After being removed to the hospital, Dr. Well trephined the skull, but Kimble never recovered consciousness, and died this morning.

**ROBBED TH EMINT.**

Serious Charge Against a Mint Employee and a Grocer.

[ASSOCIATED PRESS NIGHT REPORT.] SEATTLE (Wash.) Feb. 24.—There are six vessels overdue from Alaska. They are the City of Topeka, Cleveand, Noyo, Protection, Augusta and Scotia. Their non-arrival causes no serious apprehension, as it

**THE TIMES**

*Weekly Circulation Statement.*  
STATE OF CALIFORNIA, COUNTY OF  
LOS ANGELES, SS.

Personally appeared before me, Harry Clegg, attorney for the circulation for the Times-Mirror Company, who, being duly sworn, deposes and says that the daily business of the Times for the past 10 days of the week ended February 13, 1898, were as follows:

Sunday, February 13, 1898—25,000.  
Monday, " 14, " 20,196.  
Tuesday, " 15, " 20,196.  
Wednesday, " 16, " 20,500.  
Thursday, " 17, " 22,482.  
Friday, " 18, " 22,482.  
Saturday, " 19, " 21,250.  
Total for the week, 147,920.  
Daily average for the week, 22,240.

[Signed] HARRY CLEGG,  
Subscribed and sworn to before me this 19th day of February, 1898.

THOMAS L. CHAPIN,  
Notary Public in the County of Los Angeles, State of California.

NOTE.—THE TIMES is a seven-day paper. The above aggregate, viz., 147,920 copies, issued by us during the seven days of the past week would, if apportioned on the basis of the daily evenin' paper, give 26,220 copies circulation for each week-day of 26,220 copies.

THE TIMES is the only Los Angeles paper which has regularly published sworn statements of its circulation, both gross and net, weekly, monthly and yearly, during the past several years. Advertisers have the right to know the NET CIRCULATION of the medium which seeks their business, and THE TIMES gives them correctly, from time to time; and it furthermore guarantees that the circulation of THE TIMES regularly exceeds the combined circulation of all other Los Angeles daily newspapers.

**ALMOST A PANIC**

ON THE NEW YORK STOCK EXCHANGE YESTERDAY.

James R. Keane, Greatest of Bear Speculators, Makes a Fortune in an Hour.

STOCKS FORCED WAY DOWN.

THOUSANDS OF SHARES OF RAILROAD STOCK WERE SOLD.

RELIABLE BROKERS Come to the Rescue, but not Until Millions of Dollars Were Lost—Vanderbilt Stock Influenced.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 24.—[Exclusive Dispatch.] Wall street had the nearest approach to a panic this morning that stock speculators and margin gamblers have experienced for many years. They did not suffer so much loss, owing to their ability to flop from bull to bear. One man, James R. Keane, the greatest of the bear speculators, was primarily responsible for this big slump in prices. In an hour, between 10 and 11 a.m., his fortune probably doubled. He made more money in that one hour, according to common report, than the President of the United States makes in four years.

Stock quotations have been gradually sagging downward during the past week, owing to the uncertain prospects of trouble with Spain. In Wall street the feeling of security became more shaky, and Keane and his associates saw an opportunity for a great raid.

The instant the long awaited rate war was over, the cut rates Roads were very forced to place them in jeopardy by taking part in a fight in which it is very remote.

General passenger agents of the western roads had a meeting here today to consider action to be taken on the subject of the transcontinental rate war. It was decided that for the present, at least, the cut rates should be strictly confined to the St. Paul gateway. A committee of seven was appointed to prepare a plan for the conduct of the war, to report to another general meeting to be held to-morrow.

Reports are in circulation that the Canadian Pacific road is buying up stocks of the Minneapolis and St. Louis, with the view of securing control of the latter. The acquisition would give

WEATHER CONDITIONS.—The pressure is falling rapidly north of the 40th parallel and a strong cold front is moving southward, approaching the coast between San Mendocino and the Columbia River. Rain is falling in Northern California, and cloudy and unsettled weather prevails generally on the Pacific Slope, with easterly to southerly winds, fresh to brisk in force in the northern portion. The wind blowing a gale in Nevada. The temperature has risen west of the Rocky Mountains. It has fallen eastward, and zero temperature prevails in Northern Montana.

FORECASTS.—Local forecast for Los Angeles and vicinity: Continued cloudy and unsettled weather tonight and Friday, with showers.

## WEATHER FORECAST:

SAN FRANCISCO, Feb. 24.—For Southern California: Cloudy and unsettled weather Friday, with conditions favorable for showers in the early morning; fresh southerly winds.

## ALL ALONG THE LINE.

The Fresno Republican has scored another bullseye in saying: "The yellow war news is taking on a sickly hue. It now has about the color and consistency of a squeezed lemon."

The Arizona Republican gives thanks for its merits in this wise: "We Americans ought to be grateful that we do not live under such conditions in this republic that it is dangerous to deal out justice to a man lest a revolution ensue. That is apparently the state of affairs in la belle Paris."

The San José Mercury says: "The Klondike trade will be a good thing this year for the California fruit industry. Each person who departs for the North takes with him from 150 to 200 pounds of dried fruit, and this assumes, as the Commercial News says, at least 5,000,000 pounds of dried fruit being sold in the new market between now and September."

The San Francisco Chronicle gives sound advice to those agitated by the war scare. It says: "There is one safe rule for readers of the yellow press to follow if they want the actual and vital news about the affair with Spain, and that is to analyze the text before accepting the headlines and to pass special and exclusive paroxysms to type, in the privacy of small type, the matter-of-fact news."

Solid truth lies in this saying of the Tulare Register: "One thing the Maine incident and the strained relations with Spain ought to do, and that is close the wide mouths of those who regard every expenditure for army or navy as money thrown away. Despite the new leaves which the world has turned over from time to time it is a wicked old world still, and very little will precipitate a conflict, and, while the United States should not spend a dollar for aggression, it must spend many millions for defense."

The Tacoma Ledger says with truth: "During the intense excitement following the sinking of the Maine, there has been unusual and remarkable good sense displayed in this country, Spain and Cuba, and no hasty or ill-considered statements have been made, with one exception. Lieut. Sobria, naval attaché of the Spanish legation, has hastened to show his ears and to pray that he knows the cause of the explosion, and that discipline was on board the Maine. This astute attaché admits that in case of war he will be of immense service to his country as the result of the information that has come to his knowledge. Sobria seems to be built on the De Lome plan, and will bear watching."

The San Francisco Chronicle says: "The cost of a single first-class battleship, with its armament, would provide for fifty torpedo-boats, or about the number now needed, in addition to those building to safeguard ports which are not otherwise well protected. There is no surer guarantee of long peace than the means of waging a successful war, and to this more than to any other cause England owes her immunity from attack by powers that have no love for her. The principle is that which secures the peace of a city by ample provision for its police. The most conservative statesman in Congress, therefore, ought to vote the most generously for coast defenses, both afloat and ashore. No better way can be found to keep foreign nations respectful."

## A DARK MYSTERY.

Black Baby Found Dead Behind a Blacksmith Shop.

Yesterday morning E. Simpson, a colored blacksmith, found a dead negro baby at the rear of his shop, No. 228 San Pedro street. It was a prematurely-born child, and was wrapped in a newspaper. He reported the matter to the police, and Officers Fowler and Hubbard made an investigation.

The officials learned that John Donald saw a colored man named I. Thompson going to the rear of the smithy Wednesday evening. He carried a package down up in a newspaper, which he said contained bread and bologna sausage, but, which in reality is supposed to have contained the dead baby.

It was learned further that two young colored women, named Smith and Duncan, were at the old Richmond House on Commercial street Tuesday night, and suspicion points that the dead infant came from that direction.

The fetus was turned over to the Coroner, who will continue the investigation.

The Ebull auditorium was filled with a large gathering of the members yesterday afternoon at the regular monthly business meeting. The musical section of which Miss Pearson is curator, reported, and a delightful programme was given. Miss Adair gave an outline of the work of the section and Miss Pearson read an interesting paper on "Music as an Art" in which she dwelt on the greater beauties and dignities of music.

We have studied personality, character, home environment, student life and characteristics of each composer, the better to interpret him or her creations. We are uniting efforts to put the most thoughtful intelligent study and desire to educate the finer musical sensibilities; a desire to so grow toward a high stature of musical excellence as to lead many with us up to such heights as to create more and more, strengthen more and more, crystallize more and more, wholesale, develop real love for the best music; a real, keen delight in the best and a hearty support of the highest."

The remainder of the programme was as follows:

(a) "Spring Song" (Mendelssohn); (b) Fantasy from "Faust," violin solo—Miss Cogswell.

2. Chorus, "Say Lovely Flower" (Abt)—Ladies of the section.

3. "Sunshine Song" (Grieg)—Miss Adair.

(a) Two first movements from "Midsummer Night's Dream" (Mendelssohn); (b) Norwegian Bridal Procession" (Grieg)—Mrs. Strange.

5. "Maybells" (Mendelssohn) vocal duet—Miss Graham and Mrs. Pettigrew.

Paper on Grieg and Norse Music—Mrs. Ruddy.

7. (a) "The Flatterer" (Chamindade); (b) "Spring Song" (Mendelssohn)—Miss Dinsmore.

8. Romance from "La Juive" (Halévy)—Mrs. Le Doux.

"Russia, Germany, Spain" (Moszkowski) piano duet—Miss Reilly and Mrs. Seeley.

NOTES AND PERSONALS.

W. D. Larrabee returned Wednesday from a ten days' stay at Elsinore.

Frederick Harnden is visiting her sister, Mrs. Shelley Tolhurst, for a few days.

The engagement of Miss Julia Davidson and L. Louis Edwards is announced.

Mr. and Mrs. Lewis E. Kline have been married for three months on account of Mr. Kline's health.

Mrs. L. F. Anderson and daughter of Walla Walla, Wash., are visiting Mrs. Hine of Figueroa street.

Mrs. Charles Wier has returned from a three months' visit with friends in Kansas, and is now at No. 2716 South Garfield avenue.

THE CASE OF FUNG.

The Jury Disagrees—Fung to Be Tried Again.

The jury disagreed yesterday in the Federal District Court, in the case of Deer Wee Fung. The case will be tried again. Fung, it is alleged, forged the name of Wing Chee Chung, a firm in this city, to a postal money order for \$100.

PLANTERS for "HOP" Friends.

"Kid" Lewis, Charles Smith and Fannie Fulton pleaded guilty to the charge of smoking opium, in the Police Court yesterday, and were given 100, sixty and thirty-day "floaters," respectively.

Lewis has done time for petty larceny as far back as 1887, and has been twice times for receiving stolen property. The police say his regular business is disposing of stolen property. Smith and the Fulton girl profess to be husband and wife. They say they arrived here from Chicago a few days ago, and don't know where they are hunting opium smokers. Smith says he is a painter and decorator, and promised if let go this time, never to go near Chinatown again. The trial of Quong Wo, the keeper of the joint on Benjamin street, where Lewis and his companions were smoking, pleaded not guilty and his trial was set for February 28.

A Series of Accidents.

A traction car struck a wagon at Washington and Bush streets late Wednesday night and threw the driver, an old man named Matthew Lewis, to the pavement. He struck on his head and was badly injured, not recovering consciousness for an hour. Russell Warner and several other men, to Lewis's assistance, were stripped up by a wire stretched across a vacant lot to brace a billboard. The wire caught Mr. Warner under the chin and badly hurt his neck. Several other persons were slightly injured by falling over the wire. Lewis lives in the country. His wagon was demolished.

## THE PUBLIC SERVICE.

## A SHORT REPIEVE.

## A FEW DAYS OF GRACE BEFORE DOGS MUST WEAR MUZZLES.

The Plan of Establishing Attractions in Elysian Park Temporarily Abandoned.

## BLACKMAN TRIAL PROGRESSING.

## EXPERT POINDEXTER TRACES OUT THE SHORTAGES.

Discovery Made That the Records of the Grand Jury of 1894 Have Been Tampered With and Parts of the Records Stolen.

## AT THE COURT HOUSE.

## ANALYTICAL METHOD.

The Mayor has been requested to withhold for a few days his signature to the ordinance requiring all dogs to be muzzled. The reason assigned is that the supply of muzzles now in the city is too small to satisfy the demand that will arise when the ordinance goes into effect.

The project of establishing amusements in Elysian Park has been temporarily abandoned.

A point of interest was developed during the Blackman trial, yesterday, when it was shown that the defendant was not the only employee of the Los Angeles Electric Company that was under suspicion of wrong-doing. From the references made to this it is to be inferred that the defense will seek to exonerate their client at the expense of Capt. Bolton who is no longer alive to speak for himself. Later in the day Expert Poindexter took the company's books and began item by item, to track out the several amounts of shortage which go to make up the total of \$10,000 that Blackman is charged with embezzling. This is tedious and slow work, and the witness will most probably be upon the witness stand all of today.

The minutes of the grand jury of 1894, covering the testimony on which were found the indictments against operators of the Meade and Shinn gang have been stolen from the county's records.

## AT THE CITY HALL.

## A DEARTH OF MUZZLES.

## UNEXPECTED OBSTACLE TO ENFORCING THE DOG ORDINANCE.

**Mayor Snyder Will Withhold His Signature a Few Days—Proposed Attractions in Elysian Park Temporarily Abandoned.**

An unexpected obstacle in the way of the new ordinance requiring all dogs running at large to be muzzled, has been discovered. It was found that the supply of muzzles now in the city is so small as to be utterly inadequate for the probable demand. Some merchants have on hand a quantity of leather straps designed to serve as muzzles, but the dog-catcher has given notice that they are not such muzzles as the ordinance requires.

Mayor Snyder has accordingly been requested by members of the Council to withhold his signature from the ordinance for a few days, so that merchants may have an opportunity to replenish their stocks. The dogs will therefore have a short reprieve.

## PARK COMMISSION.

## Plan of Placing Attractions in Elysian Park Abandoned.

The Park Commissioners held a brief session yesterday morning.

The committee appointed to investigate the proposition of granting to Charles G. Beers the privilege of running amusements in Elysian Park, reported that Mr. Beers had decided to withdraw his petition. His original purpose was to obtain an exclusive privilege from the Park Commissioners for various attractions. He had decided, however, to rent space outside the park, and then apply to City Hall for such privileges as he might desire. The commissioners were quite ready to allow the petition to be withdrawn, as they were of the opinion that the exclusive privileges desired by Mr. Beers could not be granted unless first authorized for sale.

The Finance Committee of the board reported that there is a large amount of four-foot cordwood in Elysian Park that could be sold at \$3 a cord. It was saved and split for stovewood the committee stated that \$5.50 per cord could be realized, but the commissioners decided the better net result would be obtained if the wood were sold in four-foot lengths. The superintendent was accordingly authorized to dispose of it at \$3 per cord.

## HALL OF INDUSTRY.

## Exhibitors Much Benefited—Visitors' List Large—Concert Saturday.

The success of the Permanent Home Products Exhibition at the Hall of Industry can best be gauged by the number of visitors visiting the place.

A. B. Redding of San Francisco, secretary of the Fair Society, reported which organization had given a bond for \$10,000 as Blackman's surety, next went upon the witness stand. He stated that as soon as he learned of the defalcation he came to this city and had a conversation with Blackman in Louis F. Vetter's office, who belonged to the electric company. At that time he asked Blackman: "How much money have you stolen?" Blackman replied that he didn't know, but that he could tell by looking over the company's books. He left the office and two hours later returned and stated that his defalcation would amount to \$400.

Blackman informed witness that the remainder of the shortage would be found in the bank account, and that the experts did not need to look for any shortages prior to 1895.

"Did you discover any other shortages in the office?" asked counsel on cross-examination.

"Yes, sir."

"What was it?"

"I found one of the solicitors to be short about \$7.50, and I recovered the amount."

## PASADENA.

### GOSSE CONCERNING THE APPROACHING CITY ELECTION.

**Offices That Must Be Filled—Proposed to Issue Sewer Bonds Growing in Favor—Exercises at G.A.R. Hall.**

**PASADENA.** Feb. 24.—[Regular Correspondence.] South Pasadena is waking up to the business of coming municipal election, and the names of many prominent men are heard as possible candidates for the office of Trustee, yet so far as known none of the men whose names have been heard thus far announced themselves as candidates. It is stated, however, that the election will be strictly outside party lines and that the candidates will be selected from among the best men who will accept the nomination.

Pasadena proper, however, is not quite far enough along yet to announce probable candidates, with but one or two exceptions. The primary caucuses will be held tomorrow (Friday evening) at 7:30 o'clock, and the selected delegates from each of the six precincts, and until those delegates are selected the members of both the Republican and non-partisan parties will remain in their respective clubs, which will be the candidates for the positions of Trustees.

The citizens will be called upon at the coming election in April to elect a Trustee, and the Board of Trade, City Marshal, City Clerk, City Treasurer and five members of the Board of Library Trustees, and as yet the names of but very few candidates have been generally known that there will be two candidates, and as yet but one name has been officially announced, that of Clark Ashton, and there are no incumbents. For Trustees it is generally understood that three new names will be nominated, as the two governors are not candidates for reelection, in fact are open in their state.

This will be the first time that the Library Trustees will be elected by the vote of the people at one time. The Trustees of the city and the Library Trustees serve with-out.

**THE SEWER QUESTION.** The recent scarlet-fever scare has caused many citizens to do considerable thinking relative to the sewer question, and those who have cospools have kept the city scavenger busy of late. The Board of Trade has asked the City Attorney to consider the question of having a bond election and report upon the steps necessary to have the sewer system of the city in accordance with a general plan as outlined by the City Engineer, and which was presented to the Board of Trade at the time of the Engineer's report to the City Trustees. The feeling is growing daily that Pasadena should have a committee to represent the interests of the Western Bridge at the hands of the Board of Trade on Monday evening last has caused very many who have been lukewarm on the sewer question to decide in favor of the proposed bill to be the bond question may come up at the general election in April, and the citizens may be asked to vote "Yes" or "No" on the question of bonding the city for that purpose.

**CAPTURED THE VETERANS.** The members of Godfrey Post, G.A.R., were in session this evening, when in response to the regulation signal the inner guard opened the door and was surprised to see the members of the Ladies' Auxiliary of the Veterans march into the room with Picket Rogers as a prisoner. They conducted the picket to the altar, and soon at the signal given by the Master Commander, General welcomed the visitors, and remarks were made by H. A. Gaylord in behalf of the Sons of Veterans, and Miss Lulu Bush in behalf of the American Aid Society. At the close of the meeting coffee and sandwiches were served. The surprise was complete.

**PASADENA BREVIETES.** The annual sidewalk is being laid on the east side of Los Angeles from Orange Grove to Orange Grove Avenue. Until now there have been but patches of sidewalk on this side of the avenue between the two avenues.

The brick-veneered building which stood two days at the corner of Fair Oaks avenue and Union street, was early this morning successfully removed under the electric road wires, and is now in place on West Union street.

The ladies of the Universal Church held a reception and oyster supper in the vestry of the church this evening, which was largely attended.

Thomas Reed, who left some six months ago for Bulawayo, has returned to Pasadena, satisfied that it is far preferable to live here than Africa.

The Executive Committee of the non-partisan party held a meeting in the office of C. Brown this evening with closed doors.

**SAN BERNARDINO COUNTY.**

**Legal Contest over a Valuable Mining Claim.**

**SAN BERNARDINO.** Feb. 24.—[Regular Correspondence.] Papers have been filed in the suit of E. H. Keith vs. P. H. Lemert, Mr. de Laveaux et al. The complaint asserts that on January 1, 1888, the plaintiff, with Samuel Fowler and Charles Ashton, discovered and located the "Foiraydray" mining claim, located in the Silver Mountain district, about seven miles north of Ore Grande. The claim was formerly known as the "What Not." A notice of location was posted, a stone monument built, and steps were taken to outline the boundary of the claim.

The former claimants, who figure as defendants, have been having trouble on the ground and caused much with his companions to quit work and leave the claim. The location mark was torn down and the piles of earth scattered. On February 1, the plaintiff made another attempt to operate on the claim, but was not permitted to do so by the defendant who remained in possession.

Keith, to whom the rights of the other alleged locators Fowler and Ashton, have been transferred, admit that the defendants have four years prior claim on the mine, although they have never worked it, failed to perform the annual assessment required by law, or that any assessment work was done during 1897, that the mine was abandoned during the day of the year when the defendant took possession of the claim, and that the plaintiff had been subjected to great indignities by the defendant. The plaintiff is an attractive girl, and seems to deeply feel the humiliation to which she is subjected in the trial. Great interest in the case is manifested by the public and the influence of the defendant, who is considered one of the leading business men of the city.

**WATER RATES CUT DOWN.**

The Joint Water Committee of the Common Council met Wednesday evening to revise the ordinance regulating the price of water furnished by the city of San Diego. Reductions were made in the rates of hydroelectric power for \$80 per year, and water for street-sprinkling purposes was reduced from 10 cents per 1000 gallons.

The fixed rate for water for irrigation purposes is as follows: one acre and under two acres, 6 cents per 1000 gallons; for two acres and one-half per 1000 gallons, the water to be measured by meter at the expense of the irrigator.

The claim in dispute is a valuable one. It consists of a lode or vein of gold and silver-bearing quartz, 1500 feet in length. The claim is held to obtain a judgment for the recovery of possession of the property, and damages for having been kept of the property, and costs.

Joseph Lacape got a sixty-day floater for carrying a concealed weapon.

**Not Transformed into Junk.**

Alex Matuchefski, a junk dealer, was tried by a jury yesterday in Justice Morrison's court and acquitted of the charge of petty larceny. Matuchefski found a electric transformer belonging to the Edison Electric Light Co. on the street and loaded it into his wagon. Officer Holloman saw him driving away with the machine and arrested him. Matuchefski's plea was that he found the machine and brought it back to his property, and Matuchefski had already been put to considerable expense and inconvenience, the jury took a charitable view of the matter and exonerated the defendant of criminal intent.

**THEY CAN'T STOP IT.**

**NO RAILROAD VETO ON FIESTA TO BE TOLERATED.**

**The People Will Have Their Carnival Regardless of Huntington Santa Fe Management Subscriptions are Coming In.**

Notwithstanding the penny-wise and pound-foolish policy pursued by the railroad companies in regard to La Fiesta, subscriptions to the fiesta fund continue to be forwarded to the Times. Evidently the people do not propose to let public enterprise be smothered by the selfish corporations, the Southern Pacific of Kentucky and the Huntington and Santa Fe. The citizens of Los Angeles are in a mood, judging by the way they are beginning to respond to the request of the Fiesta Committee for aid, to consider the railroad companies as their extra cars to haul visitors to this city, whether the traffic managers like it or not.

Not much surprise is expressed that Mr. Huntington's corporation has refused to contribute to a worthy cause, but the Santa Fe's unusual lack of enterprise and liberality calls for much unfriendly comment. The attitude of this erstwhile popular corporation is only explainable by the fact that the road now has a Huntington management. The attitude of the new management toward La Fiesta is in marked contrast to that of the late K. H. Wade who was one of the ardent promoters of the annual festival of the Angel City, and will always be remembered in Southern California as a true friend of this section.

Nor are the people of Los Angeles unmindful of the friendly attitude and liberal support of La Fiesta ever manifested by J. M. Crawley during his term as Los Angeles City Attorney.

The new building is soon to be erected on Broadway, opposite the City Hall, which its occupancy is to be devoted entirely to music and art. The ground selected is the only vacant space on the west side of Broadway, between Second and Third streets, and was formerly the site of the old Newmark residence. Harris Newmark, the owner of the ground, has decided to erect a handsome four-story building, and the work of construction will begin at once. The contract has been let, and it is expected that the building will be ready for occupancy by September 1.

F. W. Blanchard, the music dealer, has engaged Mr. Newmark to lease a portion of the entire building.

He is enthusiastic over the project, and expects to make the building the center for the music-lovers and art-lovers of the city.

The first floor will be occupied by a music store. On the second floor there will be a recital hall, a concert hall, a room for 400 persons, and a banquet hall. The third floor will be devoted to musical studios. The fourth floor, which will be abundantly lighted by skylights, as well as by windows, will be given up to art studios and an art gallery.

The building will be equipped with elevators and steam heat, and will be moderately priced. It will have a frontage of 60 feet and a depth of 150. The material will probably be pressed brick and terra cotta. The general design includes a handsome vestibule, with rich columns and massive door.

It will be the only building devoted to similar purposes west of Chicago.
